

## A Speaking Challenge for Spanish Students

Say the following sentences out loud in Spanish as fluently as possible:

- 1. I'd thought about giving it to you for a while, but I was afraid that you wouldn't have liked it.*
- 2. You could've told me, but I wouldn't have known what to do anyway. You should've asked your brother to do it.*
- 3. He dropped his phone. I broke my phone. I left my phone at home. We ran out of food.*
- 4. I told you not to tell it to him, but since you already did, you have to tell him not to tell anyone else.*

IF

- it took you longer than 30 seconds to say these sentences out loud **OR**
- you were unsure how to say something **OR**
- your speech had hesitations, pauses, or stutters

Check out this book for guided fluency training - it will help you build the muscle memory necessary to use the most important advanced sentences structures in Spanish with ease

The goal of this book is to provide the framework for students learning Spanish to achieve an advanced level in speaking ability. The idea is to be able to begin using more complex constructions as rapidly as possible, which is made easy through this more intuitive, sentence-based approach. The emphasis of this book is on verbs and syntax patterns because those are context-independent and more difficult to reference, whereas nouns that you don't know can either be worked around or looked up in a dictionary. Hopefully, by using this book, you will gain an intuitive understanding of various advanced syntax patterns in Spanish that you'll soon be able to use subconsciously. The Kindle format does not support certain aspects of the book.
